Contents of Volume 17

Number 1

T. Ikeda, B. H. Choi, S. Yee, Y. Murata and **E. J. Quilligan**	1	Oxidative stress, brain white matter damage and intrauterine asphyxia in fetal lambs
J. Hernandez-R, A. Boyzo and **R. Mercadoc**	15	Activity of sialidases in fetal brain axonal growth cones and during postnatal development
P. D. Kitchener, K. M. Dziegielewska, E. J. Hutton, C. F. L. Hinrichsen and **N. R. Saunders**	21	Fetuin in neurons of the retina and cerebellum during fetal and postnatal development of the rat
V. Franceschini, M. Lazzari and **F. Ciani**	31	Lectin characterization of the olfactory system in brachiopterygian fish
A. Plagemann, T. Harder, A. Rake, U. Janert, K. Melchior, W. Rohde and **G. Dörner**	37	Morphological alterations of hypothalamic nuclei due to intrahypothalamic hyperinsulinism in newborn rats
B. R. Unsworth, G. T. Hayman, A. Carroll and **P. I. Lelkes**	45	Tissue-specific alternative mRNA splicing of phenylethanolamine *N*-methyltransferase (PNMT) during development by intron retention
J. Moran, S. Alavez, M. Rivera-Gaxiola, A. Valencia and **S. Hurtado**	57	Effect of NMDA antagonists on the activity of glutaminase and aspartate aminotransferase in the developing rat cerebellum
E. M. Caparelli-Dáquer and **S. L. Schmidt**	67	Morphological brain asymmetries in male mice with callosal defects due to prenatal gamma irradiation
	I	Forthcoming Papers

Number 2

E. Knyihár-Csillik, P. Rakic and **B. Csillik**	79	Illusive transience of parvalbumin expression during embryonic development of the primate spinal cord
R. Giuffrida, L. S. Malatino, M. Bellomo and **S. Sapienza**	99	Immunohistochemical modifications of vasoactive neuropeptides and excitatory amino acids in the nervous tissues of the mongolian gerbil after transient cerebral ischemia
Ann M. Turnley and **P. F. Bartlett**	109	Nerve growth factor modulates myelin-associated glycoprotein binding to sensory neurons
M. Berardi, C. Hindelang, J. M. Félix and **M. E. Stoeckel**	121	L1 and laminin: their expression during rat hypophysis ontogenesis and in adult neurohemal areas
G.-B. Van Setten, L. Edström, H. Stibler, S. Rasmussen and **G. Schultz**	131	Levels of transforming growth factor alpha (TGF-α) in human cerebrospinal fluid
M. Sugioka, W.-L. Zhou, H.-D. Hofmann and **M. Yamashita**	135	Involvement of P2 purinoceptors in the regulation of DNA synthesis in the neural retina of chick embryo
J. García-Estrada, S. Luquín, A. M. Fernández and **L. M. Garcia-Segura**	145	Dehydroepiandrosterone, pregnenolone and sex steroids down-regulate reactive astroglia in the male rat brain after a penetrating brain injury
	I	Forthcoming Papers

Number 3

Marta Majdan and **Freda D. Miller** 153 Neuronal life and death decisions: functional antagonism between the Trk and p75 neurotrophin receptors

Miho Sugioka, Wen-Liang Zhou, Hans-Dieter Hofmann and **Masayuki Yamashita** 163 Ca^{2+} mobilization and capacitative Ca^{2+} entry regulate DNA synthesis in cultured chick retinal neuroepithelial cells

Danica B. Stanimirovic, Rita Ball, Daniel L. Small and **Arumugam Muruganandam** 173 Developmental regulation of glutamate transporters and glutamine synthetase activity in astrocyte cultures differentiated *in vitro*

Christoph Schmitz, Eva Bültmann, Monika Gube and **Hubert Korr** 185 Neuron loss in the mouse hippocampus following prenatal injection of tritiated thymidine or saline

Takashi Kanda, Takayuki Iwasaki, Satoshi Nakamura, Akira Ueki, Tsutomu Kurokawa, Kazuhiko Ikeda and **Hidehiro Mizusawa** 191 FGF-9 is an autocrine/paracrine neurotrophic substance for spinal motoneurons

Edna N. Yamasaki, Valéria D. Barbosa, Fernando G. de Mello and **Jan Nora Hokoç** 201 GABAergic system in the developing mammalian retina: dual sources of GABA at early stages of postnatal development

Zuzanna Setkowicz, Rafal Pawliński, Marek Ziaja and **Krzysztof Janeczko** 215 Spatiotemporal pattern of the postnatal astrogliogenesis in the rat hippocampal formation

Katherine M. Lyser, Rostislav Chernomorsky, Christos Michalopoulos and **Laura H. Twersky** 225 Horizontal cell differentiation in the retina of the Brazilian opossum, *Monodelphis domestica*

Shashi Wadhwa, Phalguni Anand and **Deepika Bhowmick** 239 Quantitative study of plasticity in the auditory nuclei of chick under conditions of prenatal sound attenuation and overstimulation with species specific and music sound stimuli

Neelima B. Chauhan, Helen M. Figlewicz and **Talat Khan** 255 Carbon filaments direct the growth of postlesional plastic axons after spinal cord injury

Gayle Byrne and **Stephen J. Suomi** 265 Social separation in infant *Cebus apella*: patterns of behavioral and cortisol response

I Forthcoming papers

III Announcement

Number 4

E. Goutan, E. Martí and **I. Ferrer** 275 Expression of synaptic proteins in the developing rat cerebellum following ionizing radiation

Aziz Hafidi 285 Distribution of BDNF, NT-3 and NT-4 in the developing auditory brainstem

M. M. Brauer, J. Llodrá, M. C. Scorza, R. Chávez, G. Burnstock, C. Thrasivoulu and **T. Cowen** 295 Differential effects of prepubertal chronic oestrogen treatment on the synthesis of noradrenaline in uterine myometrial and perivascular sympathetic nerves

Gloria Ruiz, Mircea Bancila, Mauricio Valenzuela, Geneviève Daval, Kami Hossein Kia and **Daniel Vergé** 305 Plasticity of 5-hydroxytryptamine$_{1B}$ receptors during postnatal development in the rat visual cortex

Elisabeth Hösli and **L. Hösli** 317 Cellular localization of estrogen receptors on neurones in various regions of cultured rat CNS: coexistence with cholinergic and galanin receptors

Louise C. Abbott and **David M. Jacobowitz** 331 Developmental expression of calretinin-immunoreactivity in the thalamic eminence of the fetal mouse

Danielle M. Kerkovich, Douglas Sapp, Karen Weidenheim, Celia F. Brosnan, Steven E. Pfeiffer, Hermes H. Yeh and **Jorge Busciglio** 347 Fetal human cortical neurons grown in culture: morphological differentiation, biochemical correlates and development of electrical activity

Elisabet Sarri and **Enrique Claro** 357 Fluoride-induced depletion of polyphosphoinositides in rat brain cortical slices: a rationale for the inhibitory effects on phospholipase C

Jean-François Doriat, Violette Koziel, Anne-Claude Humbert and **Jean-Luc Daval** 369 Repeated seizure-associated long-lasting changes of *N*-methyl-D-aspartate receptor properties in the developing rat brain

Jacqueline K. Phillips and **Caryl E. Hill** 377 Neuroreceptor mRNA expression in the rat mesenteric artery develops independently of innervation

Marc R. Del Bigio, Shahid Hosain and **Mensura Altumbabic** 387 Localization of urokinase-type plasminogen activator, its receptor, and inhibitors in mouse forebrain during postnatal development

Andrew T. Croydon, Brian J. Millar, Roger W. A. Linden and **Malcolm Maden** 401 Mesencephalic innervation of the vibrissal follicle–sinus complex in the mouse embryo

I Forthcoming papers

Numbers 5–6

Special Issue: PROCESS OF GLIOMA INVASION

J.-C. Tonn, J. J. Bernstein and **R. H. Goldbrunner** 411 Processes of glioma invasion

E. R. Laws Jr. and **M. E. Shaffrey** 413 The inherent invasiveness of cerebral gliomas: implications for clinical management

M. Chekenya, H. K. Rooprai, D. Davies, J. M. Levine, A. M. Butt and **G. J. Pilkington** 421 The NG2 chondroitin sulfate proteoglycan: role in malignant progression of human brain tumours

G. H. Vince, S. Wagner, T. Pietsch, R. Klein, R. H. Goldbrunner, K. Roosen and **J. C. Tonn** 437 Heterogeneous regional expression patterns of matrix metalloproteinases in human malignant gliomas

K.-K. Cho, T. Mikkelsen, Y. J. Lee, F. Jiang, M. Chopp and **M. L. Rosenblum** 447 The role of protein kinase Cα in U-87 glioma invasion

W. A. Golembieski, S. Ge, K. Nelson, T. Mikkelsen and **S. A. Rempel** 463 Increased SPARC expression promotes U87 glioblastoma invasion *in vitro*

M. Sandström, M. Johansson, J. Sandström, A. T. Bergenheim and **R. Henriksson** 473 Expression of the proteolytic factors, tPA and uPA, PAI-1 and VEGF during malignant glioma progression

L. L. Demchik, M. Sameni, K. Nelson, T. Mikkelsen and **B. F. Sloane** 483 Cathepsin B and glioma invasion

S. K. Chintala, J. C. Tonn and **J. S. Rao** 495 Matrix metalloproteinases and their biological function in human gliomas

J. T. Rutka, S. Ivanchuk, S. Mondal, M. Taylor, K. Sakai, P. Dirks, P. Jun, S. Jung, L. E. Becker and **C. Ackerley** 503 Co-expression of nestin and vimentin intermediate filaments in invasive human astrocytoma cells

K. Lamszus, J. Laterra, M. Westphal and **E. M. Rosen** 517 Scatter factor/hepatocyte growth factor (SF/HGF) content and function in human gliomas

B. Bølge Tysnes, R. Mahesparan, F. Thorsen, H. K. Haugland, T. Porwol, P. Ø. Enger, M. Lund-Johansen and **R. Bjerkvig** 531 Laminin expression by glial fibrillary acidic protein positive cells in human gliomas

L. de Ridder 541 Behaviour of gliomas *in vitro* vs histopathological grading

A. Flügel, M. S. Labeur, E.-M. Grasbon-Frodl, G. W. Kreutzberg and **M. B. Graeber** 547 Microglia only weakly present glioma antigen to cytotoxic T cells

P. Vajkoczy, R. Goldbrunner, M. Farhadi, G. Vince, L. Schilling, J. C. Tonn, P. Schmiedek and **M. D. Menger** 557 Glioma cell migration is associated with glioma-induced angiogenesis in vivo

M. M. Valter, O. D. Wiestler and **T. Pietsch** 565 Differential control of VEGF synthesis and secretion in human glioma cells by IL-1 and EGF

M. Sasaki, S. Wizigmann-Voos, W. Risau and **K. H. Plate** 579 Retrovirus producer cells encoding antisense VEGF prolong survival of rats with intracranial GS9L gliomas

R. H. Goldbrunner, T. Pietsch, G. H. Vince, J. J. Bernstein, S. Wagner, H. Hageman, D. M. Selby, J. Krauss, N. Soerensen and **J.-C. Tonn** 593 Different vascular patterns of medulloblastoma and supratentorial primitive neuroectodermal tumors

W. S. McDonough, A. Johansson, H. Joffee, A. Giese and **M. E. Berens** 601 Gap junction intercellular communication in gliomas is inversely related to cell motility

H. K. Rooprai, T. Vanmeter, C. Panou, S. Schnüll, G. Trillo-Pazos, D. Davies and **G. J. Pilkington** 613 The role of integrin receptors in aspects of glioma invasion *in vitro*

E. Kaczmarek, S. Zapf, H. Bouterfa, J. C. Tonn, M. Westphal and **A. Giese** 625 Dissecting glioma invasion: interrelation of adhesion, migration and intercellular contacts determine the invasive phenotype

G. S. Bauman, B. J. Fisher, W. MacDonald, V. R. Amberger, E. Moore and **R. F. Del Maestro** 643 Effects of radiation on a three-dimensional model of malignant glioma invasion

T.-Ann Read, V. Stensvaag, H. Vindenes, E. Ulvestad, R. Bjerkvig and **F. Thorsen** 653 Cells encapsulated in alginate: a potential system for delivery of recombinant proteins to malignant brain tumours

P. E. Øyvind, T. Visted, F. Thorsen, R. Bjerkvig and **M. Lund-Johansen** 665 Retroviral transfection of the lacZ gene from Liz-9 packaging cells to glioma spheroids

I Forthcoming papers

Number 7

Renu Agarwal, Amita Gupta and **Girja S. Shukla** 673 Developmental pattern of reactive oxygen species generation and antioxidative defense machinery in rat cerebral microvessels

Tomoaki Ikeda, Xiao Y. Xia, Yi X. Xia, Tsuyomu Ikenoue and **Ben H. Choi** 681 Expression of glial cell line-derived neurotrophic factor in the brain and cerebrospinal fluid of the developing rat

Yael Abreu-Villaça and **Sergio Luis Schmidt** 693 Effects of prenatal gamma irradiation on the development of the corpus callosum of Swiss mice

W. I. Silva, H. M. Maldonado, M. P. Lisanti, J. DeVellis, G. Chompre, N. Mayol, M. Ortiz, G. Velazquez, A. Maldonado and **J. Montalvo** 705 Identification of caveolae and caveolin in C6 glioma cells

Konstantin Wewetzer, Juan J. Archelos, Hans-Peter Hartung, Bernd Seilheimer and **Bodo Christ** 715 The monoclonal antibody 23E9 defines a novel developmentally-regulated Schwann cell surface antigen

Gülay Üzüm, A. Sarper Diler and **Ziya Ziylan** 727 Effects of spermidine treatment on neurobehavioral development in intrauterine growth retarded (IUGR) rats

A. Szász, B. Barna, Z. Szupera, G. De Visscher, Z. Galbács, M. Kirsch-Volders and **M. Szente** 733 Chronic low-dose maternal exposure to methylmercury enhances epileptogenicity in developing rats

Tryambak Deo Singh and **Raj Shankar** 743 Developmental regulation and effect of early undernutrition on phosphorylation of rat cortical synaptic membrane proteins

I Forthcoming papers

Number 8

R. H. Miller, J. E. Hayes, K. L. Dyer and **C. R. Sussman** 753 Mechanisms of oligodendrocyte commitment in the vertebrate CNS

M. Kipper-Galperin, R. Galilly, H. D. Danenberg and **T. Brenner** 765 Dehydroepiandrosterone selectively inhibits production of tumor necrosis factor α and Interlukin-6 in astrocytes

A. Hilliard, A. Ramesh and **N. H. Zawia** 777 Correlation between lead-induced changes in cerebral ornithine decarboxylase and protein kinase C activities during development and in cultured PC 12 CELLS

R. B. Anderson and **B. Key** 787 Role of acetylcholinesterase in the development of axon tracts within the embryonic vertebrate brain

L. Camargo De Moura Campos and **J. Nora Hokoç** 795 Ontogeny of cholinergic amacrine cells in the opossum (*Didelphis aurita*) retina

E. Edwards, J. A. King and **J. C. S. Fray** 805 Increased basal activity of the HPA axis and renin-angiotensin system in congenital learned helpless rats exposed to stress early in development

I. Pita, A. M. Jelaso and **C. F. Ide** 813 IL-1β increases intracellular calcium through an IL-1 type 1 receptor mediated mechanism in C6 astrocytic cells

V. Barresi, D. F. Condorelli and **A. M. Giuffrida Stella** 821 *GFAP* gene methylation in different neural cell types from rat brain

S. Murtomäki, I. Virtanen and **P. Liesi** 829 Neurofilament proteins are constitutively expressed in F9 teratocarcinoma cells

N. G. Pavlova, N. N. Konstantinova and **A. V. Arutjunyan** 839 Functional and biochemical criteria for investigation of brain development disorders

XII Forthcoming papers
